

Health Care Transparency

Dave Adkisson

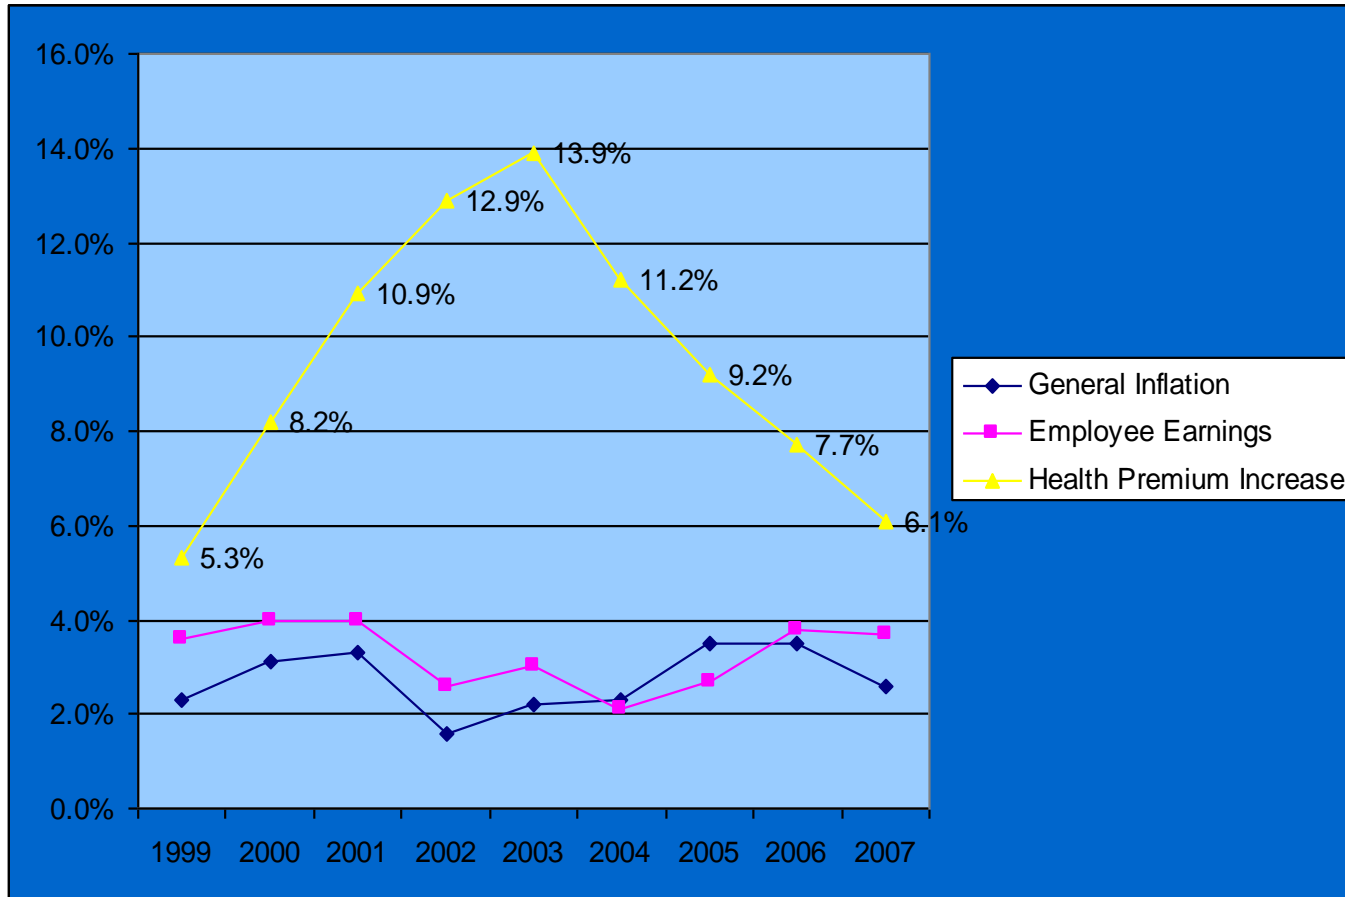

President and CEO

Kentucky Chamber of Commerce

Health expenditures increase the cost of doing business

- According to the U.S. Chamber of Commerce, over 174 million Americans receive health coverage through their employers.
- The number of uninsured Americans is increasing.
- Businesses and individuals are both struggling with these cost increases.

Premiums outpacing inflation and earnings.

Health Care Information Center

Welcome to the Commonwealth of Kentucky's Health Care Information Center. Health care is very individualized to patient needs and patient care. As consumers, it is important that we all have access to reliable information about health care costs and quality to assist in making the best, most informed decisions.

The center provides both performance and outcome information on hospitals in Kentucky, as well as information about quality of care. Additionally, we will provide measurements of how well preventive care efforts are working to reduce the number of inpatient stays in Kentucky hospitals.

To learn more about these Quality Indicators and to access the reports, click the links below:

- [Inpatient Quality Indicators \(IQIs\)](#)
- [Prevention Quality Indicators \(PQIs\)](#)

Hospital Information

Quality Measures

Quality indicators provide hospital-by-hospital comparisons on selected, nationally-recognized measures from the Agency for Healthcare Research and Quality (AHRQ). AHRQ Inpatient Quality Indicators (IQIs) measure the quality of care provided by hospitals by summarizing the frequency and outcome of selected inpatient procedures. These indicators are risk-adjusted to more fairly compare performance across hospitals serving patients of differing risk mixtures.

[Download the Agency for Healthcare Research and Quality Fact Sheet.](#)

Hospital Charge Information

The Kentucky Hospital Association provides hospital charge information by the top Diagnosis Related Groups (DRGs). DRG is a classification of hospitalization types based on the patient's medical condition, procedures performed (if any)

[Click here](#) to learn what these tabs mean.

Welcome to Hospital Compare. This tool provides you with information on how well the hospitals in your area care for all their adult patients with certain **medical** conditions. Hospital Compare was created through the efforts of the Centers for Medicare and Medicaid Services (CMS), the Department of Health and Human Services, and other members of the **Hospital Quality Alliance: Improving Care Through Information (HOA)**. The information on this website has been provided primarily by hospitals that have agreed to submit quality information for Hospital Compare to make public.

This information will help you compare the quality of care hospitals provide. Talk to your doctor about this information to help you, your family and your friends make your best hospital care decisions.

Attention Hospitals: The next refresh of the data displayed in Hospital Compare will be December 13, 2007. If the demographic information for your hospital has changed, please provide the correct information to your **State Survey Agency ASPEN Coordinator** no later than November 9, 2007.

This website has:	How would you like to Find a Hospital?

Florida's Comparison Web site

<http://www.floridahealthfinder.gov/>

Kentucky Chamber

The screenshot displays the FloridaHealthFinder.gov website. At the top left is the Great Seal of the State of Florida. The main header reads "FloridaHealthFinder.gov" with the tagline "Connecting Florida with Health Care Information". Below this are two tabs: "Florida Consumers" (selected) and "Researchers and Professionals". The page is divided into several sections: "look up a medical condition." with a search bar and a list of medical topics; "locate a facility." with search options by facility type and proximity; "compare health plans." with a link to compare plans; "symptom navigator." with a description of the tool and an image of a human figure; and "Help for Florida Consumers." with a vertical list of resources. A "Welcome..." section provides an overview of the website's redesign and its purpose.

Welcome...

Welcome to the State of Florida's newly redesigned health care website, at the [Agency for Health Care Administration \(AHCA\)](#). The new design brings together two websites, [FloridaHealthStat.com](#) and [FloridaCompareCare.gov](#) into a new central site.

You can find information to help you compare hospitals, ambulatory surgery centers, health plans, nursing homes, and prescription drugs. The website also lists Florida health care facilities; information on health insurance; medical care resources for the uninsured; resources for seniors; and much more.

Florida is a national leader in making health care information available to

Uniting Business. Advancing Kentucky.

We can and should continue to improve the information available to consumers. Thank you.
