16th Annual Conference
COVID-19
Frontline Worker Safety:
A Global Perspective

Frontline Workers: A Global Perspective

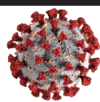

International
Authorities From
Around the World

Introduction by:
Past Surgeon
General,
Joycelyn Elders,
MD

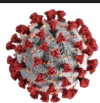

Sept. 14, 2022 Webinar
<https://healthconference.org>

Outcomes & Objectives

- Identify infection control strategies that prevent and mitigate the spread of COVID-19 disease among both frontline workers and patients.
- Advise retailers, schools, and others on strategies they should undertake to establish a safe workplace which protects both frontline workers and patrons.
- Identify infectious disease infrastructure deficiencies in the COVID-19 pandemic.
- Discuss cultural and socioeconomic barriers and social disparities which place socially disadvantaged populations at increased risk of infection and severe disease.
- Explain the risks of disability and death from not only acute COVID-19 but also the disabling effects of Long COVID.

Health Watch USAsm Continuing Education

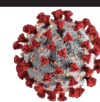

The conference has two accreditation agencies for healthcare continuing education.

- ⇒ **Northeast Multistate Division:** This activity has been submitted to the Northeast Multistate Division Education Unit for approval to award 6 contact hours. The Northeast Multistate Division Education Unit is accredited as an approver of nursing continuing professional development by the American Nurses Credentialing Center's Commission on Accreditation.
- ⇒ **Southern Kentucky AHEC:** Physician/Physician Assistant/Nurse Practitioner/Nursing Home Administrator (AMA Category I) will be provided. In addition, Respiratory Therapy (KBRC), Physical Therapy, Pharmacy, Dentistry, and Occupational Therapy credits will be applied for through the appropriate Kentucky Oversight board.

Educational credits are funded at no charge by Health Watch USAsm.

Conference Agenda

8:40 to 8:50 AM - Introduction

8:50 am to 12:00 noon - Morning Presentations

12:40 pm to 1:00 pm - Dr. Joycelyn Elders

1:00 pm to 3:00 pm - Afternoon Presentations

3:00 pm to 4:00 pm - Panel Discussion:
The Normalization of Workarounds in Health care: An Ongoing American Crisis.

4:00 pm to 4:15 pm—Conference Summary and Closing Remarks, Dr. Kevin Kavanagh

* All times are Eastern Time Zone. All participants should log on 10 to 15 mins before the start of the program.

Afternoon Presentations

Ambassador Deborah Birx, MD
Presenting "COVID-19 USA - Lessons and new tools to improve workplace safety"

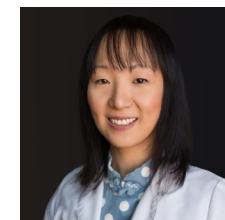

Frazier Beatty, Ph.D., MPH
Presenting "Impact of Healthcare Disparities on the Frontline"

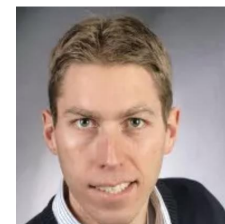

Ziyad Al-Aly, MD Presenting
"An Overview of Long COVID"

Mengyi "Zed" Zha, MD
Presenting "Workplace Violence Against Healthcare Workers"

Eike Steinman, PHD
Presenting "Transmission and Inactivation of SARS-CoV-2" (Germany)

Panel: "The Normalization of Deviance : " Jeannie Cimiotti, RN PhD, Chris Pontus, MS, RN

Kevin Kavanagh, MD, MS Board Chairman of Health Watch USA. Intro. & Summary Remarks.

Webinar Speakers

Australia: Professor Imogen Mitchell Clinical Director of the ACT COVID-19 Response and Executive Director of Research and Academic Partnerships, Canberra Health Services Canberra, Australia.

United Kingdom:

Dr. Stephanie Dancer is a Consultant Microbiologist in NHS Lanarkshire and Professor of Microbiology at Edinburgh Napier University, Scotland. She has been editing the Journal of Hospital Infection for 20 years, five as editor-in-chief.

Singapore: Dr. Matthias Maiwald is a Senior Consultant and the Head of Service, Microbiology, at KK Women's and Children's Hospital, and an Adjunct Associate Professor at the Department of Microbiology and Immunology, National University of Singapore, and at Duke-National University of Singapore Graduate Medical School in Singapore.

Kenya: Dr. Paul Yonga currently serves as a Consultant in International Health for EASO and EU Member States and is also an Infectious Disease Consultant at the CA Medlynks Tropical/Travel Medicine & Infectious Diseases Clinic in Nairobi, Kenya, and the Fountain Health Care Hospital in Eldoret.

www.healthconference.org

Continuing Objectives

- ♦ To identify infection control strategies that prevent and mitigate the spread of COVID-19 disease among both frontline workers and patients.
- To be able to advise retailers, schools, and others on strategies they should undertake to stop the spread of disease.
- To be able to identify infectious disease infrastructure deficiencies in the COVID-19 pandemic and what needs to be present for future pandemics.
- To be able to express an understanding of cultural socioeconomic barriers preventing acceptance of public health strategies and strategies to mitigate these barriers.

Continuing Education

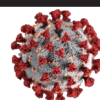

The conference has two accreditation agencies for healthcare continuing education.

- ⇒ **Massachusetts Nurses Association:** Nursing Credits for the morning and afternoon session will be provided by the MNA.
- ⇒ **Southern Kentucky AHEC:** Physician/Physician Assistant/Nurse Practitioner/Nursing Home Administrator (AMA Category I) will be provided. In addition, Respiratory Therapy (KBRC), Physical Therapy, Pharmacy, Dentistry, and Occupational Therapy credits will be applied for through the appropriate Kentucky Oversight board.

Educational credits are funded by the Massachusetts Nurses Association and Health Watch USA.

Conference Agenda

Introduction:

8:10 – 8:20 Welcome: Katie Murphy, MNA President

Presentations:

8:20 – 8:30 AM United States: Dr. Kevin Kavanagh

8:30 – 9:00 AM Australia: Professor Imogen Mitchell

9:00 – 9:30 AM Singapore: Dr. Matthias Maiwald

9:30 – 10:00 AM Kenya: Dr. Paul Yonga

10:00 – 10:30 Spain: Dr. Jesus Rodriguez-Baño

10:30 – 10:40 AM Break

10:40 – 11:10 AM Germany: Dr. Sebastian Hoehl

11:10 – 11:40 AM United Kingdom: Dr Stephanie Dancer

11:40 – 12:00 Noon. United States: Dr. Kevin Kavanagh: Discussion of mitigation strategies for retailers and schools.

Keynote Address:

12:00 – 12:30 PM: Acting Deputy Secretary, US Department of Veterans Affairs, Dr. Carolyn Clancy.

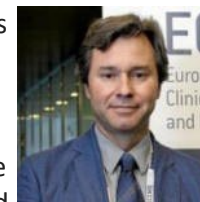

* All times are Eastern Time Zone

All participants should log on 10 to 15 mins before the start of the program.

Download Current Agenda

Due to unforeseen circumstances, speakers, topics and times may change without notice.

Spain: Dr. Jesus Rodriguez-Baño is the immediate Past President of the ESCMID (European Society of Clinical Microbiology and Infectious Diseases) and Associate Editor of Clinical Microbiology and Infection, Spain.

Germany: Dr. Sebastian Hoehl is a Pediatrician and aspiring Virologist at the University Hospital Frankfurt am Main, Goethe University. He has been leading investigations on SARS-CoV-2 transmission, and as early February 2020, identified asymptomatic spread.

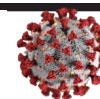

United States: Dr. Kevin Kavanagh is Board Chairman of Health Watch USA, an Associate Editor for the Journal of Patient Safety and on the Editorial Board for Infection Control Today. He serves on the CMS Hospital-Acquired Condition Technical Expert Panel, the AHRQ Health Care Effectiveness and Outcomes Research Study Section, and the NQF Consensus Standards Approval Committee.

Through the Eyes of the Frontline: COVID 19
Massachusetts Nurses Association & Health Watch USAsm
Webinar July 15th, 2020

COVID-19 - The Perfect Storm, The History of the Ineffective Disease Policy: Dr. Kevin Kavanagh from Health Watch USAsm traces the history of the ineffective infectious disease policy regarding the USA's attempt to stop the Sars-CoV-2 pandemic. A historical perspective is given, covering President George Bush's 2005 proposal of the Pandemic and All-Hazards Preparedness Act to the disastrous second peak of the first wave which was associated with continued supply disruptions, lack of testing and an uncoordinated Federal Response.

View Presentation Video: <https://youtu.be/L7qShgRSLIU>

COVID-19 - Netherlands from the Front Lines: Dr. Christina Vondenbrouke-Grauls from the Netherlands' describes Netherlands response to the COVID-19 pandemic. A description is given of how public health guidance changed as more knowledge regarding the lethality and infectivity of the virus was obtained. Along with the successful strategies the Netherlands employed and the phased reopenings which allowed the country to return to a more normal life while still maintaining low levels of viral cases.

View Presentation Video: <https://youtu.be/UYLMgDgil8g>

**COVID-19 - Singapore From the Front Lines:**

Dr. Matthias Maiwald tells the story of COVID-19 and Singapore. In this presentation he stresses the importance of preparation with both planning and stockpiling of protective gear. Almost three N-95 masks were stockpiled for each Citizen of Singapore. Advanced case tracking using cell phones is described along with the importance of paying attention to all segments of society as the virus does not discriminate and can easily spread from one public sector to another. Finally, the importance of maintaining the skills and staffing for Laboratory Developed Tests which can be rapidly brought on line for a fast

response. **View Presentation Video:** <https://youtu.be/EEWis0cOLLA>

COVID-19 - Spain From the Front Lines: Dr. Jesus Rodriguez-Bano, the immediate Past President of the European Society of Clinical Microbiology and Infectious Diseases and Associate-Editor of Clinical Microbiology and Infection. discusses the history of the COVID-19 response in Spain and what was found to work and what did not.

View Presentation Video: <https://youtu.be/mxfGYAtskVY>

COVID-19 - United States From the Front Lines: Dr. Elaine Bernard discusses how the lack of social infrastructure for workers and the population at large set the state for racial and social disparities in both the impact and our response to the COVID-19 pandemic.

View Presentation Video: <https://youtu.be/UIMg156bM0A>

COVID-19 2020 Closing Comments - Not Following Public Health Advice: Dr. Kevin Kavanagh from Health Watch USA(sm) summarizes the 2020 COVID-19 Conference. The United States has fallen behind other nations of the world in controlling COVID-19. Almost all nations underestimated the infectivity and lethality of the virus and had to change public health recommendations to achieve control. But unlike other nations, many in the United States used these changes to discredit public health officials and then advocate to not follow public health strategies. Leaders in the United States have also mitigated the dangers of the virus and the usefulness of widespread community testing.

Eastside Library, Lexington, KY

Conference Objectives

- To recognize the importance of the FDA in fostering antibiotic stewardship and appropriate antibiotic usage in livestock and humans.
- To describe needed reforms in the FDA oversight of drug and device safety, including post-marketing reporting and proper marketing and sale of drugs.
- The attendee will develop and explain how political influences can shape a response to epidemics.
- To describe strategies needed to be employed to successfully stop the Hepatitis A epidemic.
- To recognize the dangers of childhood illnesses and the importance of vaccinations.
- The attendee will be able to describe the importance and role of the patient advocate in healthcare policy.

Exhibitors—More to Come !!

- Kentucky Long-Term Care Ombudsman Association
- Purgenix

Conference Registration

Registration opens 11:30 am. Conference begins at 12:30 pm and ends at 8:30 pm.

Continuing Education: Check website www.healthconference.org. Certificate of attendance will be provided.

HW USA is a designated "Community Leader" in Value-Driven Health Care by the U.S. Dept. of Health & Human Services.

Conference Topics

Epidemiology of Epidemics: Lessons Learned

1. The Cholera Epidemic in Haiti.
2. Kentucky Hepatitis A Epidemic
3. Importance of School Vaccinations.

Strengthening the FDA

1. FDA and Opioid Recommendations.
2. MAUDE Database — Who Reports.
3. Drug Approval Process — Risks & Benefits of Bisphosphonates.

Patient Advocacy

1. The Second Victim — Is this an appropriate term?
2. The Role of Patient Advocacy in Healthcare Policy.

Health Care Finances

1. The High Cost of Insulin and Diabetic Healthcare. How to best navigate the system.

Due to unforeseen circumstances, speakers, topics and times may change without notice.

To register go to:

www.healthconference.org

or contact the conference coordinator, Cathy Kavanagh, at 606-425-7278.

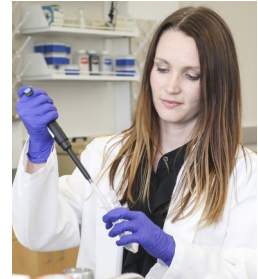

Registration Fee (non-refundable but transferable): Conference Attendance: \$25 including box lunch and snacks.

RN, COHN-S/CCM.**
Associate Director Health &
Safety, Massachusetts
Nurse Association

**Jonathan Rosen, MS,
CIH, FAIHA,** Principal
Industrial Hygiene / Safety
& Health Consultant, AJ
Rosen & Associates, LLC

Presentation: The intersection of Occupational Hazards for Nurses, Safe Staffing, and Infection Control.

In this session we will review key occupational hazards confronting Registered Nurses and detail the effect they have on the wellbeing of nurses and patients. Healthcare has a greater prevalence of occupational injury and illness than manufacturing, construction, or mining. The negative impact of inadequate RN staffing on several key patient outcomes has been documented in the peer reviewed literature. However, the impact of Healthcare Acquired Infections on Registered Nurses and healthcare workers is not currently being tracked and research on the effectiveness of occupational control measures is sparse.

Kentucky ranks 42nd in a country with below average health care for industrialized nations. (Commonwealth Fund 2018 State Healthcare Scorecard)

**October 4, 2018
Eastside Library, Lexington, KY**

Conference Objectives

- Attendees will recognize the importance of healthcare staff and patient advocacy in the prevention of adverse events
- Attendees will recognize how infectious disease place both patients and staff at risk, constructing the intersection between occupational health & safety with patient safety initiatives.
- Attendees will recognize the importance of good communication & patient access to their medical records, to improve both the understanding and acceptance of medical care along with the prevention of adverse events.
- Attendees will be able to explain the importance of having patient advocates on policy boards and recognize how they bring a different and important perspective.

Conference Registration

Registration desk opens at 11:45 am. Conference starts at 1:00 pm and ends at 8:30 pm.

Continuing Education: Approved hours for the following specialties:

- ⇒ 5.25 Hours for Occupational Therapists.
- ⇒ 6.26 Hours for Social Workers.
- ⇒ 5.74 KBN Contact Hours for Nursing (KBN # 1-0001-12-19-07)

HW USA is a designated
"Community Leader" in
Value-Driven Health Care by
the U.S. Dept. of Health &
Human Services - Aug. 1, 2007

Conference Topics

Lisa Danielpour. **How OpenNotes and the Patient Portal Improve Safety and Outcomes.**

The Personal Health Record and OpenNotes can provide essential information, transparency and tools to improve patient safety and health outcomes. We know patients and family leave office visits or hospital stays not retaining much of the information shared. Giving patients and family access to OpenNotes – full chart notes through the online patient portal – offers a holistic understanding often not covered by a visit summary. OpenNotes ensures everyone is on the same page and that the care plan is clear, even when families and clinicians are not in agreement.

Due to unforeseen circumstances, speakers, topics and times may change without notice.

To register go to:

MRSA

Kentucky ranks 42nd in a country with below average health care for industrialized nations. (Commonwealth Fund 2014 State Healthcare Scorecard)

November 3, 2017
Four-Points Sheraton, Lexington, KY

Conference Objectives

- To describe the importance of an effective editorial and peer review process of medical research and common problems with research which ultimately leads to its retraction.
- To develop an understanding of conflicts-of-interest and how they can distort research findings and policy formulation.
- To identify problems in monitoring for adverse events in medical implants and how nonreporting of data and ineffective postmarket followup has placed patients at risk.
- To describe how research integrity problems have affected the formulation of healthcare policy designed to halt the epidemic of resistant bacteria.
- To be able to discuss the importance of a culture of safety and healthcare accountability.

Conference Registration

Registration desk opens at 7:15 am. Conference starts at 8:30 am and ends at 5:00 pm.

Continuing Education: Applications have been submitted for 6.0 hours of continuing education credits for Physicians (AMA Category I), Physician Assistants, Nurse Practitioners, Nurses, Occupational Therapists, and Physical Therapists.

Patient Safety

Quality = Nurses / Patients

Value Equals
Quality / Cost

Kentucky ranks 42nd in a
country with below average
health care for industrialized
nations. (Commonwealth Fund
2014 State Healthcare)

November 7, 2014
Four-Points Sheraton, Lexington, KY

Conference Objectives

- To develop a working knowledge of the 2015 CMS initiatives to reduce hospital acquired conditions.
- To become familiar with the research behind the use of surveillance vs universal decolonization to control MRSA.
- To understand methods of preventing surgical infections and the importance of antibiotic stewardship.
- To identify the importance of Full Disclosure of Adverse Events and how it impacts both patient and hospital safety.
- To be able to better counsel patients regarding the risks of metal on metal implants and the flaws in their approval process.

Conference Registration

Registration desk opens at 7:15 am. Conference starts at 8:30 am and ends at 5:00 pm.

Continuing Education: 6.25 hours of continuing education credits has been approved for Physicians (AMA Category I), Physician Assistants, Nurse Practitioners, Nurses, Occupational Therapists, Social Workers, Pharmacists, and Physical Therapists. Legal educational credits approved from the KY and OH Bar.

Accrediting Organizations: Southern Kentucky AHEC. Check www.healthconference.org for updates on Continuing Education Credits.

HW USA is a designated

Conference for Healthcare Transparency & Patient Advocacy

Kentucky 45th in a country with
below average healthcare for
industrialized nations.

(source: Commonwealth Fund
& OECD 2007 Factbook)

November 16, 2007
Four Points Sheraton, Lexington, KY

Conference Objectives

To empower attendees to be an effective patient advocate by stressing their legal and moral obligations and to provide them with avenues and agencies which can support them in their efforts.

To identify the current cost transparency resources in the Kentucky Health care system and be able to teach patients on how to obtain information regarding health care costs and to shop for cost effective health care.

To identify the current quality transparency resources in the Kentucky Health care system and be able to teach patients on how to obtain information regarding health care quality and shop effectively for health care quality.

To describe the current status of Kentucky health care laws, the protections they provide health care workers and the shortcomings and pitfalls that these laws have.

To be able to discuss how health care reform may impact health care quality and cost.

Conference Agenda

November 16, 2007 8:30 am to 4:45 pm

Registration Desk Opens at 7:30 am

The United State's Health Care System in Crisis

Transparency in Quality
