Day 8 Surgery & Problems

June-October

May 27-28

Cast Removed (24 days) & Physical Therapy (4 months)

October 2014 & February 2015

Specialist Consultations

The impact on family

- Everyone lost trust in big medicine
- Peter (physical, emotional, adjustments, future)
- Dave (sleep, sadness, adjustments)
- Emily (physical, emotional, patient advocacy)

What helped most?

Honesty reduces doubts, guilt and improves physical & emotional states.

Everyone needs this!

What do we do for Peter and others?

- Patient reported questionnaires?
- School 504 physical disability plan & then what?
- State Medical Board?
- Medical Facility Patient Advocate?
- Court?
- Something else?

Social media patient advocacy

Transparency, root cause analyses & help others!

Pressure to change!

May each of us work to make the 21st century better!
